Kathy,

I understand. So if the permit goes into administrative extension, do the requirements pause, continue indefinitely, reset? Just curious, otherwise I consent to your changes, you may proceed. I assume you will send me the updated document(s).

Thanks,

*Graham Roberts**Trapper Mining Inc.**Environmental Engineer**O (970) 826-6143**C (970) 756-8950***From:** Rosow - CDPHE, Kathleen <kathleen.rosow@state.co.us>**Sent:** Tuesday, September 22, 2020 3:16 PM**To:** Graham C. This change has to do with ICIS (EPA's database of record), which requires the number of submissions of the annual report, as this is a deliverable recorded in the ICIS database.

I aligned it with the permit term of 5 years.

Kathy,

I understand all of the changes except the change to I.K.3. That section is the requirement to submit a SWMP report by March 1 of each year. Have you added a 5 year only time frame to that requirement? Or have I misinterpreted the change.

Please let me know, thanks,

Graham Roberts

Subject: (EXT)CO0032115 - minor mod for typographical errors

Hi Graham,

The division initiated a modification of CDPs permit CO0032115 to correct typographical errors relating to the ICIS code for the special studies (Parts I.C.5.a and b. of the permit), and to correct the omitted numbers of years for the annual report in Part I.C.5.b. and Part I.K.3 of the permit.

This modification changes the ICIS code from 04301 to 50008 (Part I.C.5.a and b. of the permit); and adds (5) as the number of years for the annual report in Part I.C.5.b. and Part I.K.3 of the permit.

Minor modifications do not go through the PN process, and are effective once issued.

Please acknowledge your consent to the minor mod by return email.

Thank you.

Kathy
